

As a destination that focuses so heavily on tourism, one of its key strengths is that it is not overly dependent on any single business sector because of the strong product mix, helping it continue to be successful. This is showcased in the revenue reported by the city as it tracks what is generated by each business sector.

Part of the tracking that the city utilizes is based on a 1 percent gross receipts tax that is collected from all businesses in Pigeon Forge, which also helps to generate revenue for the city budget. This gross receipts tax assists the city to identify if a business category trends downward over a period of time, providing an opportunity to identify reasons and evaluate strategies that may help to reverse the negative trend.
